GOODBYE ANAY WITH HOMETREK TC

Hometrek TC, the leading chlorpyrifos soil termiticide being marketed by Jardine Distribution Inc., (JDI) continues to protect your home against subterranean termites.

Hometrek remains to be the preferred brand of choice of pest control applicators, architects, and specifiers for soil treatment.

Macodyn Incorporated, one of the biggest pest control operators in the country, has been using and selling Hometrek since it was launched in 2007. "Hometrek is the most sought after Chlorpyrifos brand of soil termiticide. Our clientele ranges from pest control applicator, developers and contractors. Because Hometrek is being distributed by JDI, our customers are sure of its quality and value for money." said Mr. Leo Villegas, President of Macodyn, Inc.

Jardine Distribution, Inc.

“True to its promise of saying goodbye to anay, Hometrek TC offers structural protection against subterranean termites by creating a liquid barrier that stays in the soil for five years. It is made from a high quality active ingredient-Chlorpyrifos, a proven and tested ingredient that repels termites from entering the structure”, said Ms. Peachy Tiu, Hometrek Product Manager.

For more information on how to protect your home from the attack of termites, you may call our Engineer Lunas Hotline cellphone number at 0920-ANAY (2629) or Jardine Distribution at 02-8436011 to 19.
