PEACE OF MIND DURING THE RAINY SEASON

In the Philippines, rainy season is synonymous to cool weather. Cool weather makes us want to sleep in or just chill and relax. However, to some of us the rainy season is the “worry season”, worried about leaks and seepages? Instead of sipping a hot cup of coffee curled up in our favourite chair, we’re mopping or catching the roof-deck leaks with a bucket. If this scenario is familiar, ask yourself “is my house waterproof?”

Waterproofing is an essential step that many homeowners overlook. It could be that there is too much focus on the aesthetics over function. It could also be that the homeowner is not aware. Either way, without proper waterproofing you will not have peace of mind during this rainy season.

What are the benefits of proper waterproofing?

1. **Waterproofing improves the structural integrity of your home—** concrete is actually porous hence, when water is allowed to seep into the layers of the concrete, corroding the steel, weakening the structure of a house. With proper waterproofing, you have a structural solid foundation for your house.

Jardine Distribution, Inc.

2. **Waterproofing minimizes the occurrence of fungi spores in your home**—molds and mildew, causes respiratory problems, such as asthma. With a house properly waterproofed, moisture where it is not welcome is minimized and air quality, especially indoor, is improved.
3. **Good waterproofing secures your home from leaks** —Trust only the waterproofing brand that has over 80 years of waterproofing experience trusted by most contractors and experts, **Super Thoroseal**.

Super Thoroseal is a single-component cementitious waterproofing with 80 years of waterproofing experience. It is recommended for basements, fishponds, firewalls and external waterproofing and because **Super Thoroseal is NON TOXIC** it's safe to use even for concrete water tanks. In the Philippines, Super Thoroseal is distributed by Jardine Distribution Incorporated and is available in leading Do It Yourself Stores and hardwares nationwide.

For questions on waterproofing, visit www.jardinedistribution.com or call Engr. Lunas at tel no. 843-6011 to 19 or Cel. 0920-910ANAY (2629).
