TERMITE PROTECT YOUR HOME THIS SUMMER

UNPROTECTED!

Walang daan ang anay sa protektadong bahay!

No access talaga ang anay with **TOTAL TERMITE SOLUTION** — ang pinagmamang lakas ng Solignum at Soilguard. Mag Solignum para sa kahoy, at para siguradong hindi na makakapasok ang anay, gamitin ang Soilguard sa lupa.

Todo ang proteksyon with Total Termite Solution!

Any questions on Total Termite Control call Engr. Lunas at 845-8011 to 15 or Cellphone No. 0920-910-2629. Or e-mail us at cs@jardinedistribution.com

Imported and packed in the Philippines by

Preventing termites from destroying your home involves being prepared before it happens. This includes knowing the signs of termite infestations. This summer, take some time to inspect your home from termite damage. Some of the common signs of infestations are the visible mud tunnel around the interior or exterior of your home often near the foundation, soft wood in the home, and damage electrical wires. It is important that you take some time and interest in

Jardine Distribution, Inc.

checking your home from termite infestation. This is because normally, by the time you notice the signs of infestation, the damage has most likely been done.

To prevent subterranean termites from entering your home, create a barrier using the trusted Soilguard odorless soil termiticide. Soilguard is a soil termiticide with Cypermethrin as its active ingredient. Soilguard when applied to the perimeter of your home creates a lethal barrier against termites preventing them from entering your home.

Every liter of Soilguard can be diluted with 75 liters of water. The 75 liters solution can treat 15 square meter that is why Soilguard is economical to use. Soilguard is also in odorless formula making it convenient to use.

This summer, make sure your home is protected from the attack of termites. For further information on termite control, you may call Jardine Distribution, Inc hotline 02-8436011-19, 0920-9102629 or email at cs@jardinedistribution.com.
